TO THE TRADE.

FORCING BULBS

at prices quoted in this trade list, furnish the cheapest and most useful material for all kinds of cut-flower work. While prices on most of these goods have greatly declined, the quality of the crop this fall is all that could be wished for. The season has been the most favorable in many years; the bulbs are well matured, sound and heavy.

FRENCH BULBS. Crop of Romans short. The important place Roman Hyacinths and Paper White Narcissus have acquired in the cut-flower market has made it particularly desirable for us to obtain choicest stock only. Our Romans will be found correctly graded, and in regard to quality of same we have no hesitancy to offer them as "the cream of the market." Notwithstanding the scarcity of Romans we succeeded in securing a good supply especially of the extra select size.

DUTCH HYACINTHS. Please note our exceedingly low prices on First Size Select Hyacinths. The splendid results our customers have had with them greatly increased our trade, and contracting for these bulbs in immense quantities enables us to offer them at prices where it absolutely will not pay any florist to grow Second Size Bulbs.

TULIPS. The notable reduction in prices on all Tulips cannot help but to create an increased demand for these showy and useful flowers.

VALLEY PIPS. Crop of 3 year old pips short. The supply of strictly select Valley Pips, three year old, and well matured, has never yet equaled the demand. Our XXX strain of Pips has substantiated for several seasons our claim of superiority of our stock. Pips that are not strictly in first-class condition are high even at half the price we are asking for our excellent Berlin and Hamburg strains.

FLOWER SEEDS.

The most gratifying results we have had with our excellent strains of flower seeds has made this department one of the most important in our business. We receive all flower seeds as soon as harvested, and have every reason to believe that our assortment is equal to any in the United States.

FLORISTS' SUPPLIES.

This department has more than held its place with the increase of our florist business. We always carry a complete stock of fresh supplies and ask for a chance to estimate on your wants in this line before you buy elsewhere. Please note our liberal discounts on Wire Designs.

HOLLY AND BOUQUET GREEN.

We handle immense quantities of these during the months of November and December, having our own agents supervising the gathering and packing of the goods. We are acknowledged headquarters on Holly and Green, and can save you money whether you buy by the crate, ton or carload. It is to your interest to get our prices before you place any orders elsewhere.

PRICES. Our prices will be found right, considering the high quality of our stock. Should you receive lower figures from any other reliable house kindly notify us and we will try and meet them, as we positively decline to be undersold by anybody.

SHIPPING AND PACKING. We have every facility for prompt and careful execution of orders, employing a large force of experienced help. Our warehouse is most conveniently located to all railroad and steamboat offices.

While we exercise the greatest care to get the very best quality of Seeds and Bulbs, and lay contracts with the most reliable growers only, we will not guarantee the flowering of the same, nor be responsible for the crop. If not accepted on these terms, seeds or bulbs must be returned at once, and if money has been paid it will be refunded.

All general bills of Flower Seeds, Bulbs and Plants, etc., are payable **60 days from date of invoice**, subject to 3 per cent. cash discount from prices in this book for cash in 10 days.

Fertilizers, Grass Seeds, Lawn Mowers, Tools, Holly and Green, etc., net cash in 30 days.

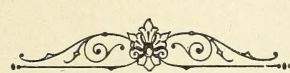

Special terms, when desired, will be made on large orders by correspondence.

C. O. D. orders should have one-third of the amount enclosed. We do not like to ship Collect on Delivery, as it is unnecessary expense to the buyer.

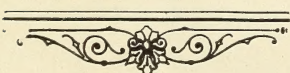

Unknown correspondents desiring credit are requested to give satisfactory reference.

SHIPPING DIRECTIONS should accompany each order, and will be carefully observed. In absence of same, however, we will use our best judgment as to route, etc.

No charge for packing or cartage.

TERMS, ETC.

Quality is the best test of Prices.

ROMAN HYACINTHS.

Crop short, especially the two larger sizes. The scarcity of these indispensable bulbs this season will undoubtedly make the forcing of a liberal quantity for cut flowers most profitable. MUSHROOM SPAWN.

The cultivation of Mushrooms can be made a very profitable business for florists. The space under the benches is especially adapted for Mushroom beds, often giving better returns than the crops above. The supply of Mushrooms has never reached the demand, therefore ready sales at good prices can be depended on.

Owing to the reliability and superior quality of our stock we have more than doubled our trade in this line last season. We receive quarterly importations of English Mushroom Spawn direct from the maker in England, and therefore customers can rest assured that they will always be furnished with fresh Spawn.

English Spawn. This sort requires less care and skill to grow than the French Spawn, per lb., 15c.; 10 lbs., \$1.00; 100 lbs., \$8.00.

French Spawn. In boxes, 2 lbs., 75c.

MUSHROOM CULTURE.

We handle immense quantities of Bouquet Green during the months of November and December, having our own agent supervising the gathering, packing and shipping of this stock.
